Subject: [TheCybugle] Vedic Mathematics

Vedic Mathematics [Book & Tutorial]

<http://www.hinduism.co.za/vedic.htm>

Much of the material in **Book** is suitable for **children** as young as eight. Vedic Mathematics is the name given to the ancient system of Mathematics. In the Vedic system 'difficult' problems or huge sums can often be solved immediately by the Vedic method. The simplicity of Vedic Mathematics means that calculations can be carried out mentally.

Revered Guruji used to say that he had reconstructed the sixteen mathematical formulae from the Atharvaveda after assiduous research and 'Tapas' (austerity) for about eight years in the forests surrounding Sringeri. Obviously these formulae are not to be found in the present recensions of Atharvaveda. They were actually reconstructed, on the basis of intuitive revelation, from materials scattered here and there in the Atharvaveda.

Please forward it to others.

RAJESH
